

NIGL JACKSON.

Dealer in Electricity—Business Good and Everything Goes.

The ex-proprietor of a perambulating gruber and soda water cart, ex-baseball mascot, ex-hackman and ex-member, two times, of the Salvation Army, and ex-advertising agent, the irrepressible and only Nigl Jackson, has once more bobbed to the surface, this time as a professional man. Yesterday he opened up his office as an electrician at the corner of Fort and Hotel streets, and during the afternoon administered shocks of various kinds to numerous patrons at 10 cents per shock, no free list.

Jackson's office consists of a very neat butler's tray and a couple of La Clanche batteries, to which are attached numerous wires, finished off at the end with metallic handles. By a peculiar combination of fluids and a little persuasive eloquence of the Mission sort Nigl wrought many cures of diseases of all kinds yesterday.

He described his new departure to an admiring crowd and gave his reasons for entering a profession different from anything he had before tried. "You see don't want to go to the doctor? Dis is a business wot no other doctor but me has, but as long as dey don't try t' throw me down dey kin come in on me me-nop'ly. See? I don't want de eart 'cause I got a snap here wot beats it. No, t' ain't as good as de army but dere's more money in it an' I'm out for dough. Here's a customer—watch me kill him."

Yes sir, dis stuff wot runs trow de wires is a combination known to meself an' de mug wot makes it; it'll cure anything from a corn t' a wormiform pain in de abdomen, dat's right! a dime cures youse of anything; microbes disappear wen youse touches dis, like snow before a Hawaiian sun. Yep! take de handle in de left han' an' gimme de dime wid de right—dat's it now rub de wire over yer heart an' it will stop beatin'. Dat's right! Thanks—call again, change? Nit.

Chinaman and Dust.

There was a very wrathful Chinaman at the fishmarket yesterday afternoon. Workmen were engaged sweeping the dirt and dust from the roof of the market. The Mongolian in question arrived under a certain part of the roof just in time to catch an unusually large dose of the dirt and dust. It was quite a little time before persons the immediate vicinity could catch a glimpse of the man. He swore vengeance on the workmen who, he thought, had played a joke on him. He was finally persuaded that the whole thing had been a coincidence and, walking to the water tap, washed the dirt away.

Cautionary Placards.

The following notice was posted in prominent places on the Mariposa upon arrival of that vessel in port yesterday: "Through passengers going ashore are requested not to eat any fruit or drink any water from the city." It is a fact worthy of notice that several of the steerage passengers were seen going toward the steamer with bunches of bananas, and green ones at that.

Will Go To England.

It is rumored that the Mariposa carried away instructions to F. S. Dodge to proceed to England and investigate the sewage system there. This, it is believed, is the result of suggestions from F. M. Swanzy.

OPPOSITION TO THE LORDS.

Change of the Upper House Proposed.

LONDON, Sept. 28.—The reform of the House of Lords in the last few days has become a topic of principal discussion.

The speech of the Marquis of Londonderry at a banquet at Ripon last night, in which he admitted that the House of Lords is susceptible to improvement and expressed the hope that the Unionists would grapple with the question, was heartily welcomed by the Unionist press and appears to confirm the statement published in the Daily Chronicle yesterday morning, that the conservative leaders meditate introducing a measure in favor of the reform of the House of Lords.

It is suggested, however, that there is a possibility that this is another scheme emanating from the Irish domination by Joseph Chamberlain, with a view to further "dish" the Radicals. The latter, however, would consent to no reform which would leave the House of Lords in existence with the power of rejecting or modifying bills adopted by the House of Commons. It is thought possible, however, that the Radicals might be induced to accept an alternative of abolishing some reform measure which would leave the Lords the mere power of referendum to the people regarding any bill which they might decline to accept.

DESCRIPTION AND TERMS:

CREOLE is the gamest, fastest and best bred stallion that has ever been imported into the Hawaiian Islands. He reduced his record of 2:20 to 2:18 in Petaluma, Cal., August 24, 1894, distancing his whole field in the first heat; then again to 2:15 in Stockton, Cal., September 23, 1894, winning the first heat in 2:15, fourth heat in 2:15, and fifth heat in 2:19, proving that he is a remarkably game as well as a speedy race horse. ("Creole by Prompter out of Grace by Buccaneer shows that he is capable of getting a mark of 2:10 and is one of the gamest stallions seen this year, and besides being game, is one of the best formed, and remarkably intelligent."—Breeder and Sportsman, Sept. 25, 1894.) He is 15 1/2 hands high and of powerful build throughout. His color is glossy black with one white hind foot. His disposition is all that could be desired, and his action superb. He is a sure foal getter.

Terms, \$50, with usual return privilege. Will make the season at the
